## ABOUT ME

I was born on August 16, 2000 (23 years old) in Canary Islands, Spain. I am in my final year of a doble degree in Business and Computer Science. My year of experience living in Warsaw helped me to get to know more than 10 European countries and to receive a full year of lecturing in English.

This has given me an open-minded attitude towards working in any country. My hobbies and interests include sports, reading and researching/developing algorithms.

## STRENGTHS

- Teamwork
- Adaptability to new situations
- Problem-solving
- Understanding of the business and IT environment

## WEAKNESSES

- Lack of creative development
- Predominance of theoretical over practical concepts
